OUR MISSION

To provide underprivileged children with an opportunity to discover their inbuilt potential, enabling them to take up responsibilities and challenges in life.

OUR VISION

We aim to enrich the lives of the needy children in urban slums and rural India, by strengthening their intellectual and emotional capabilities.
QUALITY POLICY

We are committed to enhancing the schooling of the underprivileged children by strengthening their intellectual capabilities and training them to be competent, ethical and social responsible citizens of India.

We are also committed to improving the process of our organization to maximize the impact on the delivery of our services by continually monitoring our quality management systems.
This year marks 34 years since the EOTO foundation was formed, with an aim of equality in education for underprivileged children. Children are the future of a country & the way they are raised, nurtured & the quality of education they get dictates their future, said so EOTO works on its brand promise “EDUCATE A CHILD AND DISCOVER A PERSONALITY”.

Starting with 5 children in 1983, we have now adopted several Government and aided school & all its children under our wings; we not only provide quality education but also provide them with nourishing meals which is crucial for their growth.

We believe in “continuous improvement” & with our aim to be the best in what we do, we strive hard to make our programs a befitting one. We have introduced unique techniques & mechanisms not only to improve our teaching process but, also to engage our students more into our programmes. Our training sessions for teachers makes sure that the teachers are up-to-date with modern teaching techniques. Counselling sessions for children makes them gain the proper knowledge of their life. Mobile library, in rural areas help to imbibe the value of learning & so on.

Today after 34 years I am pleased to acknowledge the success of EOTO & the beautiful souls that we have touched. We are proud to enrich the lives of more than 50,000 underprivileged children with educational support as well as support for the daily meals.

As we move forward 2017 & beyond, I am proud of what EOTO has accomplished so far, it was unimaginable without the help of our esteemed members like Mr. Manshukhlal Shah, Mr. Ashok Tanna, Mrs. Mehru Gandhi, Mrs. Usha Choudhary, Mr. Rohan Shah, Mr. Ajay Tanna & Mr. Nailesh Choksi, who devoted their time & effort for such a noble cause, since its inception. I thank those who have supported EOTO overtime & welcome all to join us as we continue our commitment to provide quality education to the underprivileged children.
• Excellence in Vocational Training – Rotary Club of Sion
• Crusader of Street Children – Indira Mirchandani Trust
• Dhadasi Mahila Puraskar (Woman of Substance Award) – Ghar Hakka Jagruti, Mumbai
• Lakshya – Sparsh – National Institute of Industrial Engineering
• Vishesh Karya Puraskar – National Congress Party
• Women of Excellence – Lala Lajpatrai College
• Pledge of Excellence – FOGSI
• The Best March Past – The annual sports day organised by Citibank & Concern India Foundation – Consecutive Three Year 2008, 2009 & 2010
• Discipline & Cleanliness Award – Concern India Foundation
ABOUT EOTO

Each One Teach One (EOTO) Charitable Foundation is a developmental organization established in 1983. It aims at creating opportunities for underprivileged children in India. Over a period of time we have reached out to 10,000+ children in urban and rural India.

We are committed to enhancing the schooling experience of underprivileged children by strengthening their intellectual capabilities and competencies. We also work towards training them to become socially responsible citizens of India.

Through regular monitoring and feedback we are constantly striving towards improving the processes of our organization and the quality of our delivery.

WHAT WE DO

1. EDUCATE AND PROMOTE EDUCATION
   The primary aim is to educate the weaker section of the society. The focus is on all the subjects. Provision of extra coaching classes enable students to cope up with the fast pace of mainstream education thereby reducing the number of dropouts.

2. BASIC SUPPORT
   How can a child step in the school without notebooks and uniforms? The students’ families find it difficult to send the children to school, as they need to pay for the basic necessities. **OUR AIM IS TO** provide students with notebooks, uniforms, one meal a day, worksheets for continuous practice and such other support.

3. ADDITIONAL & APPROPRIATE SUPPORT TO TEACHERS
   Training programs for teachers to, keep them updated with the latest techniques and teaching aids. Teachers & support staff are trained to implement the program.

4. ADDITIONAL & APPROPRIATE SUPPORT TO SCHOOLS
   To provide Toys and Book Libraries in schools to, broaden exposure to the children, setting up science laboratories to allow hands on experience for technical subjects.

   Computer training for children by setting up a computer centre and an appointed a trainer.

   Knowledge on wheels: We currently have a mobile library to promote an interest in books and education; we would like to set up more such libraries. EOTO Scholarships to encourage students for higher education.
5. **ADDITIONAL & APPROPRIATE SUPPORT TO STUDENTS**

Most of these children come from environments that are not emotionally & psychologically sound. They need to be approached with care, for that we aim to hold:

- Special counselling sessions for students who need extra attention
- Career guidance programs based on interest and aptitude tests, for students seeking direction after Std. 10
- Boosting self-confidence via simple activities such as celebrating student birthday’s and rewarding them for their performances

6. **GROWTH & SELF-DEVELOPMENT FOR STUDENTS**

- Workshops on personality development and leadership skills to help them cope up with the demands of the real world
- Activities such as karate, yoga for the holistic growth of children
- Take Civic Awareness classes for them to remove the fear of authority from their minds

7. **EXTRA-CURRICULAR ACTIVITIES**

- Make the school life more interesting by facilitating indoor activities such as carom, chess, art & craft and rangoli competitions
- We use vacation time for special skill development programs such as hobby classes for dance, art, sports training etc.
- Annual Picnics
- Inter school sports competitions organised among eoto centres
- Exposure visits of children are taken to Nehru Planetarium or other such Educational Centres
- The grand annual function which is eagerly looked upon by all the students & staff
“Teach me if you can” is an initiative solely sponsored by S. R. Charitable foundation. The main purpose of this initiative is to reach out to the children who are deprived of education, for some reason or the other & to ensure that each child gets hold of a job after completing his school.

After providing education to the children from 8th to 10th STD, our founder felt the importance of primary education. She voiced “we work hard to provide secondary education, what about the primary one?” “Are we actually helping children to get education?” With these questions she decided to take upon the responsibility of primary education as well.

This gave a light of hope to the children out there who await an opportunity. Mrs. Jyoti Tanna with all the enthusiasm started working on this project & with all the efforts & dedication the project was implemented in SION school. But the struggle didn’t end here; admitting children in the primary section, seemed to be a difficult task than ever. Parents were not ready to enrol their children in school & we started to meet them in order to make them aware about the importance of education.

Soon, after our hard work, our programme started to gain positive results. More & more children started enrolling in our programme. The most inspiring part about this project is that the students who reach the secondary level will undertake the responsibility of helping a younger child with his/her studies. Also when these children start earning, some of them come back to sponsor another child & the chain continues.

Today this project runs under the able leadership of Mrs. Seema Bhavnani who ensures that the project objectives are met. She handles the project passionately and is empathetic towards the beneficiaries and with her process leads the team of teachers to implement the project.

Mrs. Seema Bhavnani
WHAT DO THE CHILDREN LEARN?

Our programs are designed for children aged 6 years and above. They go through a gradual learning program which includes:

**COMMUNICATION SKILLS**
through group activities and participation, students learn to interact better in a family as well as in external environment.

**TUITIONS**
for comprehensive academic learning which improves their knowledge and awareness.

**VALUE BASED SESSIONS**
where they begin to understand the importance of moral values and social responsibility.

**AESTHETIC DEVELOPMENT**
where they develop finer talents like painting, music, nature activities like gardening etc.

**PERSONALITY DEVELOPMENT**
through games and other group activities.

MUMBAI PROJECT

It’s been many years that we are working with children in urban areas & every passing year we come up with new ideas to bring the best out of the children connected with our foundation.

Mumbai is a city of dreams, people come here to earn a living but still there are numerous people who can’t afford their daily meals & work hard for the same. Their children are the most deprived one & we lend a helping hand for such children.
Our project involves the following schools to implement the programs

SHISHUVIHAR MADHYAMIK Vidyamandir, Dadar

The school is situated near hindu colony, Dadar next to BMC office. This is a trust aided school which runs under the able guidance of its trustees. The school is supporting EOTO hand in hand for the development of the needy children.

After 11 years of work they have approached EOTO for the holistic development of secondary students. Hence a unique program to develop these students with computer coaching, spoken English, scholarship training and exposure visits was designed for the children. The project will be conducted in the academic year 2017-2018.

MUNICIPAL SECONDARY SCHOOL, VILE PARLE (WEST)

This school is situated near Sanyas Ashram and is one of the beautiful and well maintained municipal schools in Vile Parle. The students attending the school come from the nearby slums. The school principal and teachers are very dedicated towards their work and show enthusiasm in developing the needy students.

After working for more than 10 years with the support of the school we have started working with the primary section students.

the students take admission in the 5th and stay till 10th. To make the children up to the mark with the standards of the school the EOTO primary program is introduced.
PRAGAT VIDYA MANDIR, ANDHERI

This school is situated near Azad Nagar Metro Station. The students attending the school come from the nearby slums. The school principal and teachers are very cooperative.

EOTO has worked in this school for the last 7 years and supports the school with extra coaching classes. The students of these school are taken to Jamnabai Narsee Monjee School for a school connect program.

AMCHI SHALA SECONDARY SCHOOL, CHEMBUR

This school is situated near shoppers stop, Tilak Nagar and is one of the beautiful and well maintained schools. The students attending the school come from the nearby slums. This is a trust aided school which runs under the able guidance of its trustees. The school principal and teachers are very dedicated towards their work and show enthusiasm in developing the needy students.

We conduct scholarship classes for the students to attend scholarship exams and get certificates. We conduct support coaching classes for the weaker students from 3rd to 7th.
TATA COMPOUND MUNICIPAL SCHOOL, ANDHERI

This school is situated near Tata Compound and is one of the biggest municipal school in Andheri. The students attending the school come from the nearby slums. The school principal and teachers are very cooperative. This school consists of Hindi Medium, Marathi Medium & Urdu Medium.

EOTO has worked in this school for the last 30 years and also runs a computer centre for all the school children free of any remuneration.
NEW SION SECONDARY MUNICIPAL SCHOOL.

This is the first centre of EOTO where we started our operation 34 years back. We started to educate children right from the primary section to 10th. Along with normal children schooling we also took mentally challenged children under our wings. Practical activities are conducted like painting, rangoli making, crafts, dance etc to help the children learn coordination & creativity. Since 34 years we have been providing medicines to the mentally challenged children & it’s due to our very efforts that many children over the years have recovered & are living a normal life today.

Creativity is the key to success in the future, and primary education is where teachers can bring creativity in children at that level

- APJ Abdul Kalam
KALBADEVI CHUNABHATTI MAHANAGAR MADHYAMIK SHALA

We started operations in this school in 2008, since then we have received tremendous support from not only school staff but from children volunteer’s sponsors & so on. Students were from poor families but the values they inherited were commendable. The results are always consistent & students do well in their exams & latter. We have various successful students from this centre.

Basic education links the children, whether of the cities or the villages, to all that is best and lasting in India

- Mahatma Gandhi
AMCHI SHALA CHEMBUR

From the past 6 years, our students are receiving constant support from your foundation, you have always given individual attention towards all the children irrespective of his/her learning capability & this is the reason why each & every child from our school is successful in completing their education.

The programmes undertaken by your foundation in our schools are very important for us. We feel honoured to inform you that the rate of students passing every year in increasing along with their percentage. The career guidance provided to STD 10th students helped them to select a career path & today many students are successful in their life.

We are thankful to your organisation for providing your kind support to our needy children. We cannot thank you enough for your support & wish to receive the same hereafter.

Ms. Priyanka Chavhan [Principal]
Tilak Nagar, Chembur
Aamchi Shala (Primary Section)

SHISHU-VIHAR SECONDARY SCHOOL

Each One Teach One is operating in our school & helping end number of students to study & develop, at the same time you also take care about their health & well being, this is an appreciable work of yours, we feel really proud to be associated with you.

Since past year you have implemented various programmes in our school for Std. 8th to 10th which has helped the students raise their level of intelligence, which can be noticed from the results which we get in the exams. The teachers working under your organisation are doing a marvellous job by helping the children learn in the most effective manner.

Apart from the formal education, the meals which are provided by each one teach one helps our students to be healthy by mind & body. The educational scholarship provided by you is another important programme which helps deserving students to achieve their dreams & to be something in their life. The health programme makes sure that each & every child is healthy.

You all have always helped the children no matter what & we are thankful to your organisation for the same. I hope we will receive your support in the coming years as well & you will keep your work of making a difference in the life of these underprivileged children.

Mrs. Daksha Chitroda [Principal]
Hindu Colony, Dadar
Shishu Vihar School
SARPANCH OF NERAL

We all here in Neral are thankful to the Each One Teach One foundation for conducting their programmes in our village. They not only help in educating our folks but also help to improve the social status of our people.

The children in our village are getting quality education along with all the necessary supplements. The vocational centre makes sure to provide employment to the people of our village.

I feel great whenever I see the present status of our village compared to the previous one. We are developing educationally, socially & financially. Deserving children get full support from your organisation for further education. We are fortunate enough to be under your wings & would be pleased to remain forever for the betterment of our people.

Shevanta Valve
Sarpanch, Neral
PALGHA PROJECT

After successfully catering to the needs of children in Urban schools, we gave a thought about the children in rural areas & we found that these children are much more deprived & backward in terms of learning. As we believe in the term every child has a right to learn, we decided to take rural schools under our wings as well.

We started a joint venture with Dr. M. L. Dhawale Memorial Trust in 2004 to provide quality education to the children in rural areas. We have designed unique programmes in rural areas apart from the basic programmes to promote education amongst children. We also make sure that these children are in good health by arranging medical camps. The most unique feature of this project is the mobile library. The programmes undertaken besides the basic programmes are:

UNIFORM & NOTEBOOKS DISTRIBUTION
We not only provide books we also distribute uniforms to the children in rural areas.

COUNSELLING
A thorough counselling session is conducted once a year to educate children about the good values & ethics.

PAINTING & ELOCUTION
To encourage students for extracurricular activities painting & elocution competitions are organised.

SUNDAY COACHING CLASSES
We also organise Sunday coaching classes for Std. 10th in MLDT Dhawle.

MOBILE LIBRARY
We have started a mobile library in rural Palghar to imbibe the value of learning in the minds of the children. We provide a range of books to read for these children & they read it enthusiastically.

VOCATIONAL CLASSES
We provide vocational classes such as tailoring, mobile repair and so on to the people & the children in Palghar to make them self-reliant.

VOLUNTEERING ACTIVITY
Two Saturday each month is dedicated to volunteering activity by Renaissance, where volunteers engage students in extracurricular activities such as dancing, sports etc.
KAMALABEN JAYANTILAL JOGANI HIGH SCHOOL, BHOPOLI

This school is one of the best in Palghar district. With the support of dedicated volunteers from Renaissance Jewelry Ltd. we are able to conduct a series of activities.

We have the highest number of girl child in this school, each & every child comes forward to participate in all the activities.

CHINCHGHAR VOCATIONAL CENTER, BHOPOLI

EOTO started its own vocational centre in Chinchghar for the village women. We have partnered with YUVA Parivartan of Kherwadi Social Welfare Association. In 2 years the centre has taken 10 batches of tailoring course and many women of the village have successfully completed the course.
This school is fully operated by trust & is the largest of all schools in Manor. The school provides free education to the adivasi children. The distinct part about this school is that, around 3000 students study in the school & it carries out its teaching process in English, Marathi & Semi English mediums. Apart from this, the school have also provided us with an extra class to carry out vocational training programmes for women in the village, which makes sure that the women learns new skills & becomes self-dependent.

If the poor boy cannot come to education, education must go to him

- Swami Vivekanand
NERAL PROJECT - [DHAMOTHE & KUMBHE]

This project was initiated 15 years back by Ms. Mrinalini Desai & was supported financially by EOTO. It assists students from Zilla Parishad School in Dhamothe & Kumbhe Village near Neral. This project is a combination of urban project & the rural project with a unique feature of community development programmes for the adivasi women. We carry out various training programmes for children, women, teenagers etc. We have women empowerment program, community programmes & programmes for women to make them financially independent. **Today we are proud to make a difference in the lives of the people living in such villages. They are not only independent today but are confident as well.**
This is a new project undertaken by EOTO in Delhi. Through our survey we found out that there are many children in Delhi who are deprived of education & hence we came forward with a proposal of helping those children. With the support of Ms. Roopika Saran & Ms. Pratiksha Somania we are going to replicate our Mumbai programmes in N. P Coed School in Delhi.

Inauguration on 1st December 2016

Kite Making Session

Dance Class

Educational Trip
For any cause to be successful, it is important that we have a strict code of conduct, hence we have our own set rules to monitor our projects, which ensures smooth functioning of all the centres. To monitor the project we have ISO 9001: 2008 certified formats, which ensure transparency & accurate data.

We monitor our project’s success in schools by setting three objectives, we make sure to achieve these objectives in every school which are as follows:

1. Student Attendance
   This is the first objective for each & every project of our organisation. To make sure that the child attends the school regularly. This is how he will get the maximum benefit from our projects. The student attendance should be 90% for the whole academic year, which is monitored on a monthly basis.

2. Student Behaviour
   The next stage is student behaviour in class with their school mates & teachers. We conduct value education programmes & personality development programmes in order to educate children about moral values & ethics. Student behaviour is monitored on a monthly basis on predetermined objectives such as,
   1) Social Growth
   2) Work Habits
   3) Language Skills
   4) Reading Skills
   5) Handwriting Skills
   6) English & Maths
   7) Art & Crafts
   8) Music & Movement
   9) Physical & Mental Health
   to make sure that each & every child learn good values & become a responsible citizen.

3. Exam Result
   The last objective, but not the least is the exam result. The project to be successful, it is important to get 100% results from each school. We feel proud to say that each school adopted by EOTO achieved 100% results in the past year. Exam results are monitored on a quarterly basis, which includes 2 unit tests & 2 semesters.

THE MAKING OF THE ANNUAL REPORT

The Annual Report has been compiled & edited by our intern Vishakha Kini.

Hello friends I am Vishakha, I am thankful to RENU Ma’am for giving me the opportunity to work with their foundation. I came to know about my writing ability when I started making the Annual Report, from understanding the concept to visualising it & then putting it into words is what I have done till now. The support from the staff & the regular mentoring by ma’am is the reason behind the successful completion of this annual report.

I am glad to be associated with EOTO, the working environment is unique & friendly which was the biggest motivation for me to continue my work with the organisation. “We aren’t acquaintances, we are family”, said so who doesn’t like to spend their time with their family. EOTO is all about team work & we are the best team ever. The reason EOTO is different from other organisation is the respect given to each & every position, the way superior treats their subordinates, you won’t find any Founder, a CEO & the HR manager having lunch together with the other staff members. I believe every person learns when given an opportunity to & here I have found that opportunity & gained a lot of knowledge.

I wish all the success to the foundation & its member’s, It was an honour to work with you all.
We would love to thank all the people who have come forward to help the foundation. The projects consumed huge amount of work, research and dedication along with the blessing and supports from each of the donors. We hereby express our sincere gratitude to all of them who supported our cause by extending a helping hand in the hour of need.

We would like to thank all the trusts, NGO’s, corporate houses through CSR activities & individual sponsors for their constant support throughout our entire project. They make a difference in the lives of the children, who strive hard to bring a smile on the face of those little angels.

Our volunteers are our strength, they work hard without expecting anything in return. They come forward, spend time with children and help them to learn, live & enjoy life. They are real heroes of our foundation.

Any objective can be accomplished with the help of team. Team work is what makes an organisation successful. We would like to thank our team for their dedication & hard work throughout their tenure. Our teachers are the one who are on the field with the children to teach them good values & ethics, we salute them for their enthusiasm & dedication.

Our sincere gratitude towards all the people who are directly or indirectly associated with our foundation. With your valuable support, we will continue to provide our services to the underprivileged children, for preparing them to face the world.

Lots of Love

Mrs. Renu Raut
CEO
